

Move Faster with Yammer

Yammer is a private social network that helps you and your company stay on top of it all. Get connected to the right people, share information across teams and organize around projects so you can go farther faster. Transform your business with Yammer.

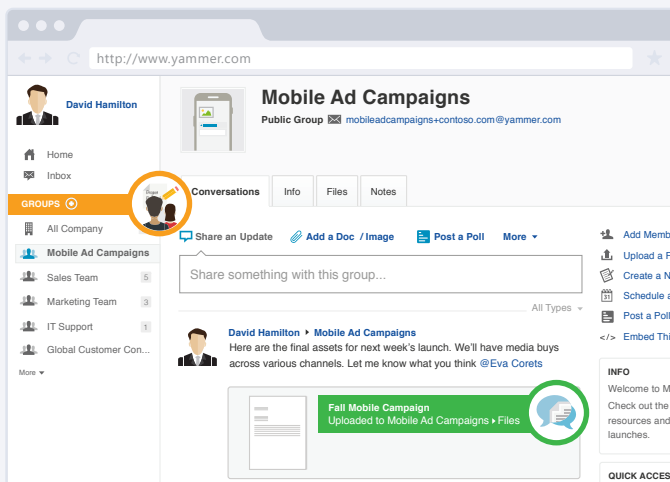

“With Yammer, we’re on the leading edge of game-changing technology.”

Andy Hedges
Director, Shopping Center Management

Work Better Together

Cut back on meetings and email chains. Work together in a Yammer Group: a flexible workspace for teams to collaborate.

Create, Discover & Join Groups. Set up a Group in seconds for any team, project, or interest and instantly start collaborating with colleagues.

Collaborate on Documents. Share documents, images, and videos, keep track of versions and see all conversations about a document in one place. Create editable wikis called Notes, and see character-by-character changes your coworkers make in real time.

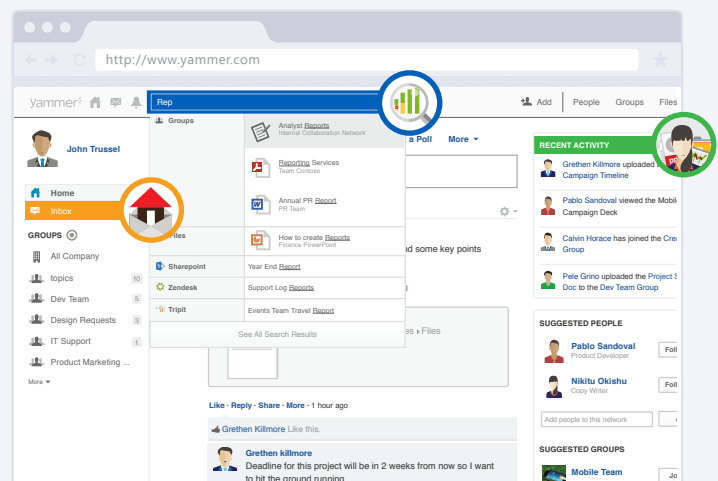

Discover What Matters

Discover things you wouldn't find otherwise: the right people, documents and conversations to get your best work done.

Stay on Top of Important Conversations. See relevant conversations in your Home feed and keep track of the conversations that matter most with Inbox: a single place for messages that need your attention first.

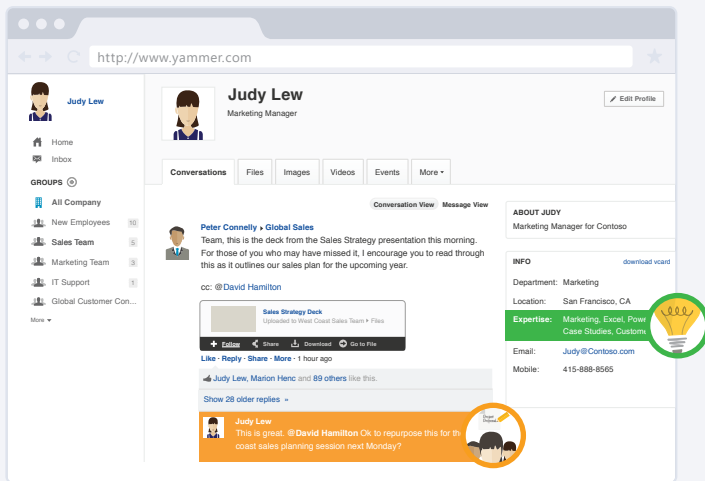

Keep up with Company Activity. With Ticker, view real-time updates of what your coworkers are working on across business applications.

Search for Anything. Find people, content and conversations—all from a single search bar.

Connect with Coworkers

Tap into your network to find exactly what you need and share your expertise with others.

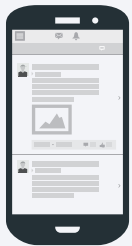

Join the Conversation. Post a message and @mention specific colleagues to loop them into the conversation. See who's online and instantly start a conversation with one or more coworkers.

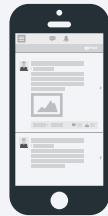

Share Your Knowledge. Fill out your expertise in your profile to let your colleagues know who you are and easily find you. Search the Member Directory to find people in your company—even while on the go.

Stay Connected on Any Device

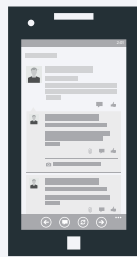

Stay connected to colleagues, company updates, messages, and notifications no matter where you are from your mobile device. Download the Yammer mobile app at yammer.com/apps

Android
