

HYBRID MEETINGS AND ROOMS WORKSHOP

Showcase modern meetings experiences and build a plan to deploy and adopt Microsoft Teams Meetings and Meeting Rooms

Extreme flexibility and hybrid work define the post pandemic workplace

This new era of hybrid work isn't as simple as combining the old reality of the workplace with the new reality of remote work. Hybrid Meetings builds on the new wave of digital transformation and Cloud power, and drives new ways to work and be together, to coordinate and collaborate, and to build a modern workplace that is as flexible and adaptive as possible - one that produces both happier people and better projects.

Work continues to evolve, and business leaders are looking for a new operating model, defined by flexibility. To succeed, organizations need to focus on three things: putting the right policies in place, reconfiguring physical spaces, and using technology to put it all together.

Technology is the binding factor to create inclusive meetings and collaboration experiences using Teams Meetings, Microsoft Teams Rooms, and devices.

HYBRID MEETINGS AND ROOMS WORKSHOP

Introducing the Meetings and Rooms Workshop — a modular engagement to identify and understand business priorities while focusing on specific scenarios that drive meetings culture transformation. With extensive solution experience, Interlink will show you the power of Teams Meetings for your specific environment including, conferencing functionality, meeting rooms technology, audio conferencing options, and Teams Live Events.
