LICENSING HEALTH CHECK

interlink CLOUD ADVISORS

Let Interlink Perform a Complimentary Microsoft Licensing Health Check on Your Environment

DON'T WASTE $$$ - UTILIZE THIS PROVEN METHODOLOGY SO YOU OPTIMIZE AND LICENSE APPROPRIATELY!

Challenges Addressed:

- ✓ Our experts know what to look for in your environment, best practices, and next steps
- ✓ Consolidate licenses and stop overpaying for licenses you don't need
- ✓ Know what you own – avoid duplicative licensing
- ✓ We help ensure correct licensing counts which reduces the risk of a Microsoft audit

Contract Review

- Renewal Dates
- Similar Products in Contracts
- Consolidation Opportunities

Server Licensing Review

- Physical & Virtual SQL Servers
- System Center, Windows Server, and CAL Licensing

Microsoft 365 Licensing Review

- Review Use Rights for Exchange, SharePoint, Skype on Premises Servers
- Correct Bundling & Review of Current Agreements

The Devil is in the Details

- Leverage Microsoft Promotions
- Legacy Licensing Exceptions
- Help architect solutions to lower costs

Common Errors We Look For:

- ✓ Paying for servers that are free with bundles
- ✓ Buying CAL licenses included in EMS bundles
- ✓ Not leveraging Hybrid Use Rights in Azure
- ✓ Assuming System Center for servers is covered with desktop licensing

- ✓ Not being clear on device vs. user licenses
- ✓ Not optimizing Core vs Server & CAL models for SQL
- ✓ System Center & Windows licensing not matching
- ✓ Core licenses undercounting by not knowing minimum quantities

Interlink's experts know the top licensing mistakes & understand licensing nuances that can save real money!
