Office 365 TENANT SECURITY REVIEW

Tenant configurations that were valid last year may now be out of date or contrary to best practices. Microsoft and IT administrators often make changes — some of which can impact the security of an organization's environment and bring chaos. One misconfiguration could be the difference between an insignificant incident and a breach that exposes your organization's critical data. A periodic review drives significant value through increased security posture, optimized configuration, and reduced risk.

Interlink's Office 365 Tenant Security Review Provides...

your organization with a prioritized list of recommended security enhancements specific to your Office 365 tenant. Other security reviews do a good job with on-premises reviews, but many lack looking into Office 365, which is critical.
