

## WITH THIS ENGAGEMENT, INTERLINK WILL:

### Profile

- ▶ Profile technology needs, connectivity, and infrastructure in use by production workers today.
- ▶ Profile upcoming technology changes that will impact production workers.

### Discuss

- ▶ Discuss how frontline worker's technology is currently part of the overall security plan for the future
- ▶ Discuss training/readiness and reinforcement of security concepts for workers

### Review

- ▶ Review business requirements for your organization, including regulatory, ISO, and customer requirements
- ▶ Review Microsoft offerings for security that are specifically built for production workers:
  - » Microsoft F1 / F3 Plans
  - » Add on for security and compliance

## HOW CAN INTERLINK HELP?

Interlink's team of expert Microsoft certified consultants will evaluate your organization's environment and deliver findings and recommendations to improve your security posture and optimize production workers—ultimately mitigating risk and saving money.

**CONTACT INTERLINK TODAY TO LEARN MORE ABOUT THIS WORKSHOP AND DISCUSS YOUR SPECIFIC ENVIRONMENT!**
