WORKSHOP

Helping You Understand Microsoft 365 Compliance Capabilities & Best Practices for Your Environment

Microsoft 365

UNDERSTANDING AND ACHIEVING COMPLIANCE WITH MICROSOFT 365

Designing an integrated approach to compliance

Are you looking to obtain a greater understanding of the compliance features of Microsoft 365? Interlink's Compliance Workshop will help you:

- ✓ Identify top compliance priorities for your specific environment
- ✓ Develop long-term recommendations for compliance strategy
- ✓ Understand how you can utilize Microsoft's integrated compliance tools and services to mitigate risk

Microsoft 365 Compliance Overview
Half-Day Workshop Covering:

- ✓ Microsoft 365 Compliance Center
- ✓ Content Preservation & Retention Policies
- ✓ Azure Information Protection (Rights Management)
- ✓ Information Classification and Governance
- ✓ Records Management
- ✓ Data Encryption Capabilities

Policy Options & Configuration
Review and Discuss:

- ✓ Classification Options — Manual vs. Automated vs. Machine Learning
- ✓ Customization Options
- ✓ Policy Enforcement, Monitoring & Alerting
- ✓ Response Actions for Violations

Environment Review
Review and Discuss:

- ✓ Existing Tenant & Microsoft Licensing
- ✓ Client's Regulatory Compliance Requirements
- ✓ Client's Contractual Compliance Requirements
- ✓ Client's Sensitive Data & Intellectual Property Compliance Requirements

Our team of experts will work with you to create deployment recommendations with licensing options.

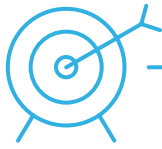

ASK US HOW TO GET THIS ENGAGEMENT FUNDED BY MICROSOFT!

www.interlink.com | hello@interlink.com | 800-900-1150

What you will receive from this engagement:

Strategic insights of how to efficiently mitigate risks and adequately protect your environment to meet compliance requirements

An overview of your organization's current compliance state and actionable steps based on your needs and objectives

Specific know-how on what you need to better understand and govern your organization's data - what it is, where it is, how it is being used, and who is using it

Meet Compliance Regulations

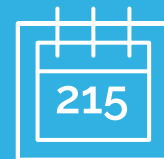

We will help you meet and understand complex compliance regulation requirements. Organizations are increasingly subject to government laws, GDPR, and a number of other additional regulations for IT security coming from suppliers, customers, and insurance companies.

How can Interlink help?

- ✓ Provide expertise around Microsoft Compliance tools
- ✓ Develop a roadmap to achieve compliance with identified standards
- ✓ Configure and deploy security tools and policies
- ✓ Help organizations take advantage of new state laws like the Ohio Data Protection Act, which provide clients a legal defense in the event of a security or data loss incident

More Than 215 Updates Every Day

Over 215 updates from 900 regulatory bodies. As your business-critical data expands and the complexity of compliance grows as your workforce shifts to remote work, having an integrated approach to compliance is more important than ever.
