Is your organization harnessing the true value of the Power Platform and Microsoft Teams to enable optimized collaboration and productivity?

Stop hindering your organization's collaboration process today!

Interlink can customize a Teams approval form based on Power Automate for your specific business environment. Save time through efficient automation (as easy as one click) and money through the standardization of business processes, which ultimately reduces risk and increases user productivity.

How can Interlink help?

The automation and standardization of deploying and creating Teams ensures that your users and tools can more easily collaborate — instead of adding clutter and confusion. **Contact Interlink today to learn more!**

BENEFITS OF THIS ENGAGEMENT:

✓ Reduce orphaned and unused Teams sites by making end-users jump a small hurdle of Team site business justification.

✓ Save time by allowing the request for a new Team to be done within the Teams interface, and for IT to approve or decline the request right from their email.

✓ Help end-users find the right Teams by standardizing naming conventions. This tool will apply prefixes based on your organization's customized business rules.

✓ Reduce technological clutter — allow end-users to create only what they need. Every Team automatically includes a Microsoft 365 Group, SharePoint Online Site, Planner, OneNote, and Exchange Online Shared Mailbox.

INTERLINK WILL WORK WITH YOU TO:

STRENGTHEN GOVERNANCE

We work to establish naming conventions, standardization, approvals, public vs. private Teams, ownership, etc. This gives visibility to IT and improves governance.

INCREASE EFFICIENCY

We help understand and plan the Teams creation process and save your organization from unnecessary clutter and confusion.

EMPOWER END-USERS

This offering exposes your users to Power Automate, Microsoft Forms, SharePoint, Approval Center, and Azure Application Registration. Unlock the full potential of the Microsoft 365 Modern Workplace.

ADDITIONAL HIGHLIGHTS OF THIS ENGAGEMENT:

COMPLIANCE

This solution creates a SharePoint list of creation histories and approval for auditing purposes.

SECURITY

By leveraging Power Automate, the solution is integrated into Office 365. Licensing is included and is secured and managed under Office 365.

OPTIONAL EXPANSION

Interlink can leverage its expertise to build out efficient SharePoint templates, folder hierarchies, and more.
