

A Hub for Teamwork in Office 365

Bringing You a Chat-Based Workspace

Microsoft Teams brings chat, content, people and tools together, all in one hub, wherever you are.

Introducing Microsoft Teams—a platform that combines workplace chat, meetings, notes, and attachments. The service integrates with your Office 365 subscription office productivity suite, and features extensions that can integrate with non-Microsoft products.

One Place for Conversations, Meetings, & Calls

Chat privately or as a group, and join meetings with HD audio and video, all in one place, instead of multiple apps.

Collaborate with Integrated Office 365 Apps

Office apps like Word, Excel, and PowerPoint are built-in, giving you access to files and tools in one place, so you stay in your workflow.

Security & Compliance

Teams is integrated into Office 365, which means it features the enterprise-grade security and compliance you need.

Tailor Your Workspace

Get notifications and content from services you care about—Trello, GitHub, Adobe Creative Cloud, SurveyMonkey, and many more.

Microsoft Teams KEY FEATURES

Teams

Allows communities, groups, or teams to join through a specific URL or invitation sent by a team administrator or owner.

Messaging

Within a team, members can set up channels. Channels are topics of conversation that allow team members to communicate together. Users can reply to posts with images, GIFs and custom-made memes.

- ✓ Direct messages allow users to send private messages to a specific user rather than a group

Calling

- ✓ Instant messaging
- ✓ Voice Over IP (VoIP)
- ✓ Video conferencing inside the client software
- ✓ Supports audio into conferences

Meetings

Meetings can be scheduled or created ad-hoc and users visiting the channel will be able to see that a meeting is currently in progress.

How Interlink Can Help Teams Roadmap

We've developed an easy and stress-free process for moving Teams. Our team walks you through the steps necessary to help your employees easily use and adopt Microsoft Teams.
