

Microsoft Intune

Included in Microsoft 365 E3, E5, F1, F3, Enterprise Mobility + Security E3 and E5, and Business Premium
All boxes outlines in orange included

Included in Intune Suite
All boxes outlines in green included

Intune Plan 1 - \$8

Modern Device Management

Manage Windows, macOS and iOS, and Android directly from the cloud with zero infrastructure required or integrate with SCCM for co-management

Windows Autopilot

Deploy new PCs from the cloud by fully customizing a PC without having to deploy a full image

PC Management

Deploy applications, patch Windows, control security policies and manage compliance

Mobile Management

Fully manage organization-owned devices and support BYOD with the security to protect organization data

Intune Plan 2 - \$4

Tunnel for Mobile App Management

Secure mobile access to on-premise resources for enrolled devices

Specialty Device Management

Management for augmented reality/virtual reality gear

Intune Suite - \$10

Remote Help

Cloud-based remote assistance for Windows, Android and Mac
\$3.50 user/month standalone

Endpoint Privilege Management

Support zero trust security by limiting admin rights on local PCs allowing escalation in IT approved scenarios
\$3.00 user/month standalone

Advanced Analytics

Utilize machine learning and AI to identify and troubleshoot anomalous behavior. Enhance device timeline stored in the cloud to allow for easier troubleshooting
\$5.00 user/month standalone

Enterprise App Management

Streamline app discovery, deployment, and patching for third-party Windows apps.
\$2.00 user/month standalone

Cloud PKI

Cloud-native certification authority supporting certificate-based authentication to wi-fi networks, VPNs and more with zero infrastructure to manage
\$2.00 user/month standalone

All prices are per user, per month (with annual contract), as estimated per Microsoft
